

Spring Valley Update

March 2017

For this month, we have a lot going on in the City and they all begin with the word new. Our New City Hall and Police Department exterior is about done and the contractors are now working on the interior. Once the building is completed, the old building will be demolished and the new water well will be built on a portion of the old site. New City park improvements will also begin once the new building is completed.

TREE ORDINANCE AMENDED

City Council approved a new amended tree ordinance which will protect our precious trees and help keep Spring Valley Village green and beautiful. The amended ordinance has an updated tree list as well as regulations for the placement and removal of trees. To view the ordinance in its entirety, please click on the link below:

MAYOR RAMSEY HONORED

On Friday, March 3, 2017, our very own mayor, Tom Ramsey, was awarded the 2017 University of Houston's Master of Public Administration Public Official of the Year award. This prestigious award is given to only two elected officials each year. We are all very proud of Mayor Ramsey. Please join us in congratulating him on this great achievement!
