

Spring Valley Update

May 2017

The City Council Meeting held on April 25th was the last meeting to be held in the current city hall. The next meeting will be held on Tuesday, May 23, 2017 at 6:00 p.m. in the new building. Prior to the meeting, we will have a Grand Opening of our new City Hall and Police Department from 4:00 p.m. to 6:00 p.m. We hope you will be able join us in celebrating this momentous occasion. City hall will be closed on Thursday, May 11th and Friday, May 12th to move from the old building and re-open on Monday, May 15, 2017 in the new city hall.

VFD's New Fire Truck

The manufacture of the Village Fire Department's new fire truck is almost complete. The process to build the fire truck takes approximately one year to construct. However, it is an essential piece of equipment that the department utilizes in order to continually provide a high level of service to all residents of the Villages. It is no wonder why the VFD is one of the few ISO Class 1 fire and rescue departments in the whole state of Texas!

Upcoming Construction Project

A new construction project will begin in early 2018 on Hilldale Street, from Adkins to Bade, Bade Street, from Hilldale to the TxDOT sound wall, and the 9200 block of Cardwell Street. The project is currently in the preliminary design phase and will include new paving, drainage, curbs and gutters. This project will help beautify Spring Valley Village.
