

NOTICE

THE SANITARY SEWER SYSTEM IN YOUR NEIGHBORHOOD WILL BE EVALUATED WITHIN THE NEXT FEW DAYS, AS AUTHORIZED BY THE CITY OF SPRING VALLEY VILLAGE, AND DIRECTED BY THE CITY'S ENGINEER.

THE RESULTS OF THIS EVALUATION WILL GIVE THE CITY'S ENGINEER, AND THE CITY, VALUABLE INFORMATION AS TO THE PRESENT CONDITION OF THE WASTEWATER COLLECTION SYSTEM (SEWER MAINS) SERVICING YOUR HOME.

THE EVALUATION CONSISTS OF FIRST CLEANING THE SEWER MAIN, AND SECONDLY SENDING A CLOSED CIRCUIT COLOR TELEVISION CAMERA THROUGH THE SEWER. THE CONDITION OF THE SEWER MAIN WILL BE RECORDED, AND SENT TO THE CITY'S ENGINEER AND THE CITY FOR EVALUATION.

THE CREWS WILL NOT NEED TO ENTER YOUR HOME. ALL WORK RELATED TO THIS PROJECT WILL BE CONDUCTED FROM MANHOLES LOCATED IN THE RIGHT-OF-WAY, EITHER IN THE STREET OR IN YOUR BACKYARD. IN THE EVENT THAT A MANHOLE IS LOCATED IN YOUR BACKYARD, OUR CREWS WILL NEED TO ACCESS THE MANHOLE THROUGH A SIDE GATE. THE CREWS WILL NOTIFY YOU IF THEY NEED ACCESS TO YOUR BACK YARD.

PLEASE NOTE: WE DO NOT ANTICIPATE ANY ISSUES DURING THE CLEANING PROCESS. THE PROCESS OF CLEANING THE SEWER LINE DOES UTILIZE HIGH PRESSURE WATER DURING THE CLEANING PHASE AND ON OCCUSION WILL INCREASE THE AIR PRESSURE IN THE SEWER MAIN AND WATER FROM THE MAIN COULD FLOW BACK TOWARD YOUR HOME. AS A PRECAUTION, PLEASE REMOVE THE WHITE FOUR-INCH, CLEANOUT CAP FOR THE DURATION OF NOTICE AS DATED BELOW. IF YOU DO NOT KNOW THE LOCATION OF YOUR CLEANOUT CAP, PLEASE PLACE THE LID TO YOUR TOILETS IN THE DOWN POSITION, AND PLEASE PLACE A TOWEL IN THE SINKS OF YOUR HOME.

THIS NOTICE WILL BE EFFECTIVE FOR THE FOLLOWING DATE(S): **FEBRUARY 5 – 7, 2020**

* PLEASE NOTE; WEATHER WILL DICTATE OUR SCHEDULE, IF IT RAINS WE MAY NOT BE ABLE TO KEEP WITH THE ABOVE SCHEDULE. *
